July 7 at STRAND

HARD DAY TRECK From
1ST Creek W. of KANGUK
Lower TO EAST Creek
up E. Creek TO Kanguk
Contact & overland along
this contact TO the Hurd
abt. 1m. from our Camp
6 mile circut abt 2550
feet up & down.

The High Country is good
Tundra. Closer to the
river IT Seems as if
the rapid uplift is CAUSING
downcutting, LOTS of
Solifluction ACTIVITY
(Active layer) the vegetation
Cover thinner

Geological note BASE of E.S.
Em probably Should be at
base of UNIT 5 in
EAST Creek SECTION
Needs more work here.
